Subject - Chemistry

CLASS:-XII

Chapter 1. Solutions.

Solute and solvent . molarity and molality.

Osmosis and reverse osmosis. Vant's haff factors

Abnormal morlar masses.

Chapter.2 Electrochemicals.

Galvanic cell, resistivity, conductivity, molar condutivity.

Primary cells and secondary.as dry cell, mercury cell, battery and fuel cell.

Chapter.2 Chemical kinetics.

Order of reaction, rate of reaction, factors effecting rate of reactions.

Zero order of reaction , first order of reactions ,second order of reaction.
